

RECOA E-Blast 9.6.2023

A Message from Eagle Crest Management

Westridge Asphalt Delay – Asphalt work will be delayed one day. Beginning Tuesday, September 12th lasting through September 26th.

If your road will be seal coated or overlaid and you have to drive that day, please park your car the night before along a road that is not scheduled for work near your home. Driveways will not be affected. Most often the inconvenience will only last in the morning to late afternoon of the same day, weather permitting. ECM will eblast individual roads with maps tomorrow so you will know what day your road will be closed and where you can park your car the night before. Parking along the road overnight will be permitted during asphalt work in your neighborhood.
